**Subject:** DILA Calibration software

Just for your info!

Dear all,

We have just added the latest calibration software for the current DLA-NZ, DLA-NP and DLA-RS series: PJ Calibration13 v1.01, to the JASC database. Please activate it on your local website by adding a ranking to the software under the 'Product Documentation' header (see image below).

The screenshot shows a web interface with a navigation menu at the top: Product details, Key Features, Commercial Text, Feature Icons, SEO & Tags, Product Documentation (highlighted), Product Security, and Webshop details. Below the menu, there are tabs for Website (JVC Europe), Category (D-ILA Projector), and Product (DLA-NP5B). A 'Documents' section contains a table with the following data:

Id	Rank	Document	Link	Security	Size
858	10	Downloads (Public) > Adjustment Tool PJ_Calibration13_en_v1_01_2.zip Model Supported DLA-NZ9, DLA-NZ8, DLA-N118, DLA-N98, DLA-RS4100, DLA-RS3100, DLA-NZ7, DLA-N88, DLA-N80, DLA-RS2100, DLA-NP5, DLA-N78, DLA-N77, DLA-N70, DLA-RS1100. Details: 'Projector Calibration Software' is a tool that enables the projector to be used in an optimal condition at all times with the use of a commercially available optical sensor. - Auto Calibration Function. - Environment Settings. - Import/Export Image Quality Adjustment Data. Additional information and system requirements can be found in the pdf file that is enclosed within the download. Please read the in the download enclosed manual 'PJ_Calibration13_manual_en_v1_11' carefully.	direct link	edit	8.21 Mb

At the bottom of the screenshot, there are three buttons: Save, Save and Close, and Close window.

You will need to do this for all applicable models: DLA-NZ9, DLA-NZ8, DLA-NZ7, DLA-NP5, and color variations.
